

YEP Field Trip 2017 –ISRAEL Eilat | November 5 – 11, 2017

REGISTRATION INFO

SEEI (The Society of Electrical and Electronics Engineers in Israel) and its *Students and Young Engineers Forum*, in collaboration with EUREL's **YEP** (Young Engineers Panel), offer **2017 Field Trip** to Israel, the *Startup Nation*.

2017 Field Trip starts on November 5 from Eilat, the city of eternal sun on the Red Sea; participants may arrive on November 4 or on November 5 until 12:15 PM to Eilat (we meet outside Eilat domestic airport) and until 13:00 PM to Ovda International Airport (near Eilat) that is served by numerous low cost flights. For those who cannot make it to Ovda, TLV (Tel Aviv International) is an alternative airport. Depending on the participants flights we suggest transportation by train from TLV and from Tel Aviv city to Be'er Sheva, we will arrange pickup from Be'er Sheva train station on November 5 (around 14:15 PM). For planning your train journey check timetable and price on <http://www1.rail.co.il/EN/Pages/Homepage.aspx>, for commuting by bus use <https://www.bus.co.il/otobusimvc/>. To book your flight and to find the best travelling combination we added a list of flights, please note that prices change (earlier booking is cheaper) and seats are limited.

The 6 days **2017 Field Trip** starts with 3 days **Technology Tour** visiting renewable power generation facilities, energy consumers, industries, and a desalination plant. It offers a glimpse of the many historical sites of the *Holy Land*. The itinerary of the Technology Tour is enclosed. On Wednesday, November 8, the Field Trip participants join **Electricity 2017** (www.electricity2017.com), the annual international convention of SEEI and the **SEEI Students and Young Engineers Annual Event**. The program draft for these 3 exciting days is enclosed.

The cost for your 6 days in Israel is 330 Euro. It *does not include*, your flights fare, transfer bus to and from the airport and your hotel for nights before November 5 and after November 10.

€ 230 are payable to the **Economic Corporation of SEEE** by credit card in 2 installments: **€ 100 upon registration** and the remaining **€130 on November 5**. This covers the following:

Technology Tour – Bus for the tour; 3 nights overstay in a hostel (some may share a room) including 2 dinners and 3 breakfasts; entrance fees to: Beit Guvrin national park and Mazada; Mazada cable car.

SEEI and EUREL Students and Young Engineers Event – convention registration fees; 3 nights in a hotel (3 sharing a room); all meals and refreshment (except for a dinner on Friday).

You may request a bus transfer to Tel Aviv from Eilat, on November 10, if it is approved (based on seats availability) you will check out from the Eilat hotel on November 10 and join the Israeli students that travel north.

We estimate that you will need **an additional € 100** for refreshment (coffee and water), luncheons, and a free evening in Tel Aviv and in Eilat.

A table that lists several flights to Ovda (Eilat) and Tel Aviv is enclosed. It is recommended to consider connections for departure from European airports that offer cheap flights to Ovda (Eilat).

To secure your participation please complete the Registration Form below and Fax to +97236134117 or mail to adi@seeei.co.il. Registration deadline is August 31, however, number of participants is limited and we apologies in advance in case your application cannot be approved. Earlier registration increases approval probability. We strongly recommend submitting a poster – accepted posters guarantee participation approval.

YEP – Young Engineers' Panel
