**Important note: Activities and schedule might change within our detailed planning**

## FAQ – Questions and answers

### **Why no group arrival?**

*A group arrival via flight costs per person roughly twice as much as a single booked flight and we would need a common meeting point for instance in Germany.*

### **Which costs will approach for meals?**

*Compared with other European countries the costs are quite normal. Most of the meals are covered by sponsoring and the participation fee.*

### **Are there furthermore travel informations?**

*Yes! Simply ask for our travel concept.*

### **How many participant places are available?**

*We have planned for 20 participants. First come, first served.*

### **Are there extra bedrooms for women?**

*Yes! We'll reserve additional rooms for female participants in both accommodations. The exact figure will be determined after the participant list is defined.*
